SOLDERING TOOLS & PATTERN SHEARS

MSI-100 100w Studio Line Soldering Iron

A comfortable, well balanced iron with excellent heat recovery, limited 1 year warranty, 1/4" taper chisel iron clad tip with a standard 3/8" shank (MSIT-203). All these features at a very reasonable price makes this iron our most popular. 220 volt model is also available.

MSI-80 80w Studio Line Soldering Iron

Similar to the 100 watt model with less wattage for more temperature control, limited 1 year warranty, 1/4" taper chisel iron clad tip with a standard 3/8" shank (MSIT-203). These features make this iron an excellent choice for your tool kit.

SOLDERING IRON REPLACEMENT TIPS

Choose from 3 styles of iron clad 3/8" shank tips for your Mika Studio Line irons.

MSIT-203
1/4" Taper
Chisel

MSIT-204
3/8" Chisel

MSIT-205
1/16" Cone

MTC-1000
Tempright Iron Controller

This is the perfect tool for creating silky smooth solder seams on all your copper foil projects. And for your lead came construction dial in the exact temperature to eliminate melting your lead came when soldering your joints. A must for any glass artist! 220 volt model available.

MSIS-403

Heavy Duty Iron Stand

Contemporary Sturdy and Durable Soldering Iron Stand with Aluminum Base and Steel Spring Holder, features a special heat resistant Bakelite ring. Tip cleaning sponge is included.

PATTERN SHEARS

Choose from 3 styles of pattern shears to cut the patterns of your foil and lead came stained glass projects perfectly with just the right amount of gap between your glass pieces to ensure proper fit during assembly.

MLS-101
Lead Pattern Shear

Removes a 1.6mm strip to allow for the heart of your lead came.

MFS-102
Foil Pattern Shear

Removes a 1.25mm strip to allow for the thickness of your copper foil.

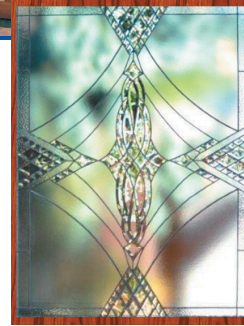

MTIO-100
2-in-1 Pattern Shear

Mika's patented 2-in-1 shear gives you the advantage of buying one tool for both foil and lead. The interchangeable center blade allows for quick and easy changes when working with foil or lead.

Look inside for a great selection of new
Bevel Clusters and quality tools.

MSC-402
Suction Cups

*1-1/2" suction cup with
metal hanging hook.
Has remarkable holding
power and unsurpassed
clarity.*

*Designed by Kate MacLeod
and built by DeWilde Art
Glass Studio,
Bend, OR*
